Circuit Clerk Dale Thompson discussed space concerns for the Circuit Clerk’s Office. She said there is a need for an inquiry room and she offered ideas for a solution.

County Administrator said that in some cases wiring has already been done and only a door needs to be installed.

The Board discussed the location for absentee voting with Ms. Thompson. Ms. Lynchard said they are still working on that particular concern. She said they are looking at various options with the Facilities Management Director.

Supervisor Bill Russell asked if there is space available in a room other than the Circuit Clerk’s office, for the forty five days of absentee voting, if it is permissible by law to make the room the registrar’s office. Mr. Martin said there is a room in the courthouse that is not yet scheduled as a courtroom and there is a possibility it could be used.

Ms. Thompson said better scheduling of courtrooms would really help. She said someone needs to be responsible for scheduling.

Mr. Davis said the courthouse renovations would not be completed in time for the August, 2015 election.

Ms. Thompson said there has been talk about moving Judge Celeste Wilson which would help. She said another area of concern is space for filing, including the files in the attic. She said the vault is another issue.

Supervisor Mark Gardner said we can ask Judge Wilson to meet with the architect as we move forward on renovations for the courthouse and requested that Ms. Thompson meet with Ms. Lynchard as well.

Supervisor Jessie Medlin said that Judge Wilson could move to the old jail.

The Board of Supervisors discussed the county providing boots for employees and agreed they would like to reconsider that benefit.

Mr. Swims said the people work in mud, ditches and concrete and the boots are needed.

Supervisor Bill Russell said he did not think the county should provide footwear to anyone.

County Administrator Vanessa Lynchard said if the Board chooses to do a policy, it would affect all departments.

Supervisor Russell said he worked for a phone company for over 30 years and he always paid for his own footwear. Supervisor Mark Gardner said he too worked for a phone company for many years and was never provided footwear. Supervisor Gardner said he had to furnish his own lineman boots as well.

Procurement Clerk Karen McNeil said earlier this year a study was done that determined it is more cost effective for the food to be prepared by jailers and employees. Ms. McNeil said on
behalf of the Sheriff, the Procurement Department recommends US Foods for inmate jail food and janitorial supplies for the Jail.

The Board of Supervisors having made a determination that US Foods is the best and lowest bid for jail food supplies and janitorial supplies; with a 12% decrease in food costs and an 11% decrease in janitorial supplies, Supervisor Jessie Medlin made the motion and Supervisor Lee Caldwell seconded the motion to award the bid to US Foods and award alternates as listed in connection with bid number 14-200-002, as fully detailed in Exhibit G.3.a. b. Janitorial Services

Procurement Clerk Karen McNeil and Facilities Management Director Tony Martin presented bids for janitorial services in county facilities.

Mr. Martin explained concerns with the current janitorial service and action taken to improve their level of service provided to the county. Mr. Martin said they have gone to great lengths to openly communicate issues and needs to the service with hopes of improvement. There has been no noticeable change on their part. He said a 30 day notice was given to APS in July to terminate their contract.

Mr. Martin recommended Sherwood Service as the lowest and best bidder, who would replace APS for janitorial services for county facilities. He said their references are FedEx. FedEx said they have used Sherwood Service for eight years and they are not going to change services. Mr. Martin said that is a very good recommendation from FedEx. He said currently FedEx is their only client and Sherwood is seeking to expand their customer base. He said that Mr. Tim Davis is the General Manager of Sherwood. Mr. Martin said he has clearly communicated expectations to Mr. Davis and is very impressed with their response.

Mr. Martin said a day person was provided by APS. He recommended taking that person out of the position and to hire a person in Facilities Management who can respond to emergencies and needs without him having to pull a person off of a project. Mr. Martin said this position is in the budget. He said the start date would be December 2, 2014 with a monthly budget impact of $11,717. They are currently paying $16,000 so it will be a savings.

Supervisor Lee Caldwell said this sounds like it will be more effective and efficient and appreciated the work Mr. Martin has put into this issue.

Supervisor Lee Caldwell made the motion and Supervisor Bill Russell seconded the motion to award the contract to Sherwood Services as the lowest and best bid for janitorial services for county facilities; and to authorize Mr. Martin to hire a day porter, if needed, at a monthly budget impact of $11,717 starting December 2, 2014; and to reject all bids in category b and category c for floor care as fully detailed in Exhibit G.3.b.

Supervisor Russell asked about the status of the Tower Clock. Mr. Martin said we have spent $3,200 toward repairs.

Supervisor Mark Gardner asked Mr. Martin to call Supervisor Harvey Lee and give him an update since he is not present in the meeting today.

At the request of Procurement Clerk Pat McLeod, item c. Single Axle Dump Truck – Road Management; d. Purchase of two Rubber Tire Backhoes; e. Purchase of four Tractors were deleted from discussion on the Agenda as such items require further consideration.

b. Environmental Services-Solid Waste: Agreement with Environmental Business Services (Jim McNaughton) to provide Professional Services associated with County Rubbish Sites, Solid Waste Services, and County Recycle Programs

Mr. Laughter said Jim McNaughton has been the consultant on solid waste matters for several years. Mr. Laughter said, as the county looks at other services such as recycle, the county rubbish pit and solid waste services, it would be advantageous to retain the independent consultant to assist with this service and include those services in the contract.

Supervisor Jesse Medlin asked if the cost is the same. Mr. Laughter said yes. It includes travel to and from Nashville which is where Mr. McNaughton lives. Mr. Laughter said the Board Attorney has reviewed the contract and made revisions to Solid Waste Services. Mr. Laughter said Environmental Services has been conservative in asking Mr. McNaughton’s advice but they want to be fiscally responsible. Mr. Laughter said last year we spent $8,000-$9,000.
Supervisor Mark Gardner clarified that Mr. McNaughton is not affiliated with a company. Mr. Laughter said he is not affiliated with anyone and is an independent consultant.

Supervisor Medlin asked what projects the money was spent on last year. Mr. Laughter said there was a price increase and some of the money went toward the Solid Waste Plan. Mr. Laughter said both he and Mr. McNaughton review the projects and money spent. Supervisor Medlin asked if Mr. McNaughton is an engineer. Mr. Laughter said Mr. McNaughton is not an engineer.

Supervisor Jessie Medlin made the motion and Supervisor Lee Caldwell seconded the motion to approve the contract for services agreement with Environmental Business Services, LLC located in Brentwood, TN (Consultant) to provide Professional Services associated with County Rubbish Sites, Solid Waste Services, and County Recycle Programs and authorize the Board President to sign the documents.

The motion passed by a vote as follows:

Supervisor Jessie Medlin said litter problems seem to be growing on the east side of the county. He said one of the issues is the DeSoto Appeal throwing papers in driveways where houses are empty and driveways where there are no houses and just land.

Mr. Henry Bailey of the Commercial Appeal said he would relay the information to their main circulation office.

Mr. Laughter said the county offers an adopt-a-road program. That program is very beneficial in helping with litter issues.

5. Office of Finance and Accounting

Grants Administrator Melissa Zizmann presented a grant application for the Sheriff’s Department for child passenger safety officers to purchase car seats to distribute during child restraint inspections. She said the officers make sure the seat is properly strapped into the vehicle.

Supervisor Bill Russell made the motion and Supervisor Lee Caldwell seconded the motion to approve applying for the Wal-Mart Local Giving Program Grant for the Sheriff’s Department Child Passenger Safety Officers in the amount of $2,500 to purchase car seats to distribute for child restraints and to authorize the Board President to sign documents related to the grant.

- Supervisor Jessie Medlin, First District: YES
- Supervisor Mark Gardner, Second District: YES
- Supervisor Bill Russell, Third District: YES
- Supervisor Lee Caldwell, Fourth District: YES
- Supervisor Harvey Lee, Fifth District: ABSENT

The Board of Supervisors discussed who does the actual check for the car seats in the vehicles. Sheriff Bill Rasco said the officers check them during a traffic stop to ensure the seats are properly installed. Sheriff Rasco said the officers will call the certified officer to check the seats.
If necessary, they will get a new protective seat from Wal-Mart for the child. Sheriff Rasco said he has officers that are certified in this area and take care of all of the inspections and make sure seats are installed correctly. Also, if a seat is recalled the officer will replace that seat as well.

Supervisor Mark Gardner said he received a call from Anna Dickerson and she asked if there was anyone certified to on how to install a child seat. Supervisor Gardner said he called the Sheriff and they sent an officer to Ms. Dickerson’s office to give her proper instruction. He said this is a great service for parents and their children.

Sheriff Rasco said he has two certified officers at this time and soon there will be a certified officer on each shift.

Supervisor Bill Russell asked what happens if an officer stops someone and they discover the car seat is either improper or improperly installed. Sheriff Rasco said that officer will call the certified officer and they will come out and install the seat correctly.

Ms. Zizmann said this is open to all families. Some families cannot afford a new car seat, especially when there is a recall. They can go through the Sheriff’s inspection and be provided with the correct seat and they will be shown how to properly install the seat.

Sheriff Rasco said they are set up at Wal-Mart, his office and other places to certify the car seats.

The Board agreed that this is a very great service to the children and parents in DeSoto County.

See Exhibit G.5.a

Deputy Planner Tom Haysley said this is a local match for planning activities. The county pays 20% and it is broken down by population. Mr. Haysley said they can provide a quarterly status report to the Board.

Supervisor Lee Caldwell confirmed that the money is one payment and is the county’s pro rata share. Mr. Garrod said the county portion is 20%.

Supervisor Lee Caldwell requested an updated list for expenses for the work being done at the EMA building; Mr. Martin said he would provide the list.
Supervisor Jessie Medlin asked about the boot purchase in Facilities Management. Mr. Martin said more muck boots may be coming.

Supervisor Medlin said he would like more information about the tire repairs on the docket by the Road Department. He would like to know how many tires are changed.

Supervisor Gardner said if it is for a passenger car, we should be changing our own flats and not calling a tire service.

Mr. Swims said he did not think it is for cars but for trucks and equipment. Mr. Swims said they did a tire repair comparison. The price is $60 which is in line with tire repair costs for trucks and equipment.

In accordance with Section 19-13-31 and Section 19-11-23 of the Mississippi Code Annotated, Supervisor Lee Caldwell made the motion and Supervisor Bill Russell seconded the motion to authorize the Chancery Clerk to pay the bills as presented by the Chief Financial Officer.

A. Rezoning Amendment: Eastbrooke Planned Development Rezoning (724) - Application is for approval of Rezoning of property from R-30, Agricultural (A), and Agricultural-Residential (A-R) to Planned Unit Development (PUD), identified as Parcel #3-06-3-05-00-0-00024-00, Parcel #3-06-3-05-00-0-00014-00 and Parcel #3-06-3-05-00-0-00015-00. Subject property is located on the north side of Vaiden Road and east of Craft Road in Section 05, Township 3, Range 6 and is zoned R-30, Agricultural (A), and Agricultural-Residential (A-R). (District 5)

Mr. Haysley presented the application for Eastbrooke Planned Development Rezoning and gave the background of the prior Planning Commission meeting and the Board of Supervisors meeting where this item was continued to today’s meeting. He stated the applicant has stated intent to revise the application, but at this time no new information has been submitted to the Planning Department by the applicant.
Supervisor Gardner asked if there was anyone present to speak for or against this application.

Becky Remington came forward and stated she is concerned with density of the development, the average lot size being .16 acres and that the development is in a floodplain.

There was discussion of the density of the development. Mr. Haysley explained that the smallest proposed lots would be 6,500 square feet, and the most populated area would have a density of 4.1 units per acre. He further explained that the proposed overall density of the development is 2.45 units per acre.

Supervisor Russell suggested that the Board of Supervisors make a Motion to deny the application and that the applicant can bring it back before the Planning Commission if any changes are made. Supervisor Medlin asked to allow anyone present to speak for or against the application.

Ms. Remington stated that lot sizes in the community surrounding the proposed development are on average larger than the lots being proposed and that the average minimum house sizes are 3000 sqf or larger.

Supervisor Gardner asked what the neighbors would consider acceptable for this area. Ms. Remington stated neighbors would prefer 2-3 acre lots with estate homes.

Supervisor Gardner asked if sewer is available at the proposed site. Mr. Haysley stated that sewer is available within a quarter of a mile of the proposed development. Ms. Remington stated she believes that 2-3 acre lots would remove the need for a central sewer system, and would allow for individual treatment plants which would be better for the environment.

Supervisor Gardner asked if fire service is available in the area. Ms. Remington stated fire insurance would be affected if the project is approved. There was discussion of current fire service and future fire service provisions.

There was discussion of the new I-269 near the proposed site. Ms. Remington stated that the new I-269 will not lead to growth on eastern side of the county just like it did not lead to growth along the section between I-55 and Tunica.

Ms. Remington stated a Planned Unit Development is uncharacteristic of the neighborhood.

Terry Abney stated he is concerned with the developer building on fill and the increased traffic along Craft that will be created if the PUD is approved.

Mr. Andy Swims, County Road Manager, explained there are plans for 5-lane sections on Craft Road.

Supervisor Gardner discussed compaction requirements. Mr. Garrod advised about Building Codes on compaction for commercial and residential and explained that there is no requirement for compaction for residential buildings.

Linda Barber stated she is concerned about flood potential in the area. Supervisor Gardner discussed the possible need of a hydraulic study to answer any questions about the flood zone and floodway as it is concerned to the proposed development.

Sandra Curtis stated she would prefer the development be 3 acre lots like she lives on.

Supervisor Medlin explained his concerns about the development being far away form I-269, the development not being characteristic of the neighborhood, and that 3/4 acre lots would be a good size for this area.

Supervisor Russell made a Motion to deny Eastbrooke Planned Development Rezoning based on Planning Commission recommendation and the comments presented. Supervisor Medlin seconded the Motion.
THE FOLLOWING ACTION WAS TAKEN ON THIS MATTER:

FIRST DISTRICT SUPERVISOR, JESSIE MEDLIN
